Hi All – here is the exemption that Freya was working on.

Lindsay – I would put a copy in each of the grant files, perhaps in the closeout section at the back.

Good morning everyone,

The attached memorandum clarifies the applicability of Grants Policy Issuances 08-02 and 11-01 regarding project period limitations to Technical Assistance Grants (TAG). TAGs have statutory

authorization for longer project periods (42 USC Chapter 103 Section 9617(c)(2)). The seven year project period limitation set forth in Grants Policy Issuances 08-02 and 11-01 therefore does not apply to a TAG for which a stage of remedial action is ongoing.

Program Offices and Grants Management Offices may extend a TAG grant project period beyond seven years for which a stage of remedial action is ongoing and that meet the requirements in the attached memorandum.

If you have any questions about this memo please contact me.

Thank you,

Alex
